We recondition used equipment and  recycle unusable material.

We buy new and used electrical equipment. Contact us regarding your excess material.

**Sustaining
the Future**

Busway Systems

You Demand

Primary Transformers

Primary Switches

Safety and Quality

- Our reconditioning process emphasizes quality and safety as our foremost priorities.
- Field technicians know that our products will arrive on time and will meet or exceed OEM specifications.

Repairs and Custom Fabrication

- Emergency repairs and custom fabrication go hand-in-hand with sustainability.
- Whether it is field adaptations or the repair of arc flash damage, our fab division can quickly and efficiently take care of most situations.

Pricing

- One of our primary goals is to save our customers money.
- Compare our commitment to quality and our competitive pricing with anyone else. You'll see why we are so confident in our products, that we provide a two-year warranty on most items.

Packaging and Shipping

- We want to make sure your shipment arrives not only on time, but also in excellent condition.
- We manufacture custom skids for busway and utilize expanding foam packaging for smaller items to ensure safe arrival to the job site.
